Road and Trail Management Plan Update

Community Site Walk # 2

Description: This guided site walk invites community members to explore areas of the Mt. Tamalpais Watershed that will be a focus of the Road and Trail Management Plan update. During the walk staff will highlight existing road and trail conditions, signage, stewardship programs and visitor facilities, and discuss how these areas relate to watershed protection and recreation.

Participants will have the opportunity to ask questions, share observations, and learn how public input will inform future planning.

Attendees should bring water, wear layers, and hiking appropriate attire and shoes, and be prepared to walk approximately 2–3 miles on uneven terrain, with some moderate elevation changes.

This series of walks is designed to support shared understanding of on-the-ground conditions that shape road and trail management decisions.

Location: Lagunitas Overflow Parking Area near Sky Oaks Road and Filter Plant Road (Sky Oaks Rd & Filter Plant Rd., California 94930)

When: Friday, February 27, 2026, from 10am – 12:30pm (*Please plan for arrival 15 minutes before the event starts at 10 am.)*

Note: Return times will vary by group. The optional unguided portion adds approximately one additional mile, and some groups may return after 12:30 PM.

In accordance with the Americans with Disabilities Act (ADA) and California Law, it is Marin Water's policy to offer its public programs, services, and meetings in a manner that is readily accessible to everyone, including those with disabilities. If you are an individual with a disability and require an accommodation, please contact ADAcoordinator@marinwater.org at least two business days in advance of the event. Advance notification will allow Marin Water to consider and implement reasonable accommodations to aid accessibility.

For general questions about this event, please reach out to carly.blanchard@marinwater.org.
