

“WATER WALK” ON THE MT. TAMALPAIS WATERSHED FIELD TRIP PERMISSION SLIP

As students take a guided tour around Lake Lagunitas they will learn about our drinking water supply – where it comes from, how much a typical person uses, and how to conserve this precious resource. Our goal is to provide students with a fun, educational visit to the source of their water supply.

The field trip will take place outdoors where natural hazards such as poison oak, uneven terrain, and changing weather may be encountered. MMWD staff will try to minimize the participant’s exposure to natural hazards.

Students will walk about 1.5 miles and should wear clothes that are appropriate for outdoor activities, such as comfortable close-toed walking shoes and long pants. Students should dress for variable weather and bring a reusable water bottle.

I, as parent or legal guardian of _____ (student), give my permission for her/him to participate in this school field trip to the Marin Municipal Water District’s Mt. Tamalpais Watershed on _____.

I grant permission to MMWD and/or the district's partner agencies to take photographs and/or videos of the participant in connection with this field trip and to use and publish these materials in print and/or electronically for non-commercial purposes such as publicity, advertising, and internet content. The name of the student will not be used.

As parent or legal guardian, I agree to hold harmless, defend, and indemnify MMWD, its officers, agents, employees, and volunteers from any and all liability and claims of any kind, including attorney’s fees and costs, arising out of or in connection with this school field trip.
